

LETTER OF APPRECIATION

To Whom It May Concern:

Jurong Engineering Limited, with business address registered at 25, Tanjung Kling Road, Singapore was engaged by ALSTOM Switzerland Ltd. under Contract FUJ-11-CP – Mechanical and Electrical Erection Contract to carry out various erection work at Fujairah F2 IWPP project at Fujairah, UAE on 3rd December 2008.

The erection work included the following:

- Erection of 5 x GT26 gas Turbine
- Erection of 3 x KA26-2 Steam Turbine
- Erection of 1,400 ton of Balance of Plant equipment including Fuel Gas equipment, Sea Water Intake Plant, Fuel Oil unloading station, Cranes & Hoist, various miscellaneous pumps.
- Erection of 86,000 dB of piping (including 4,350 dB of alloy pipe of P91 material)
- Fabrication of 73,000 dB of piping and 780 ton of pipe support
- Painting and insulation

With the dedicated site management team and capable supervision staff and workers, JEL had demonstrated their competency in the mechanical equipment erection work and as well as piping erection work in a timely and organized manner. In particular, they successfully completed total of 4,350 dB of P91 alloy pipe erection as per Alstom's stringent requirement. We are glad that JEL managed to complete the job to the requirement of Alstom despite of encountering various problems and obstacles. We trusted we had made the right choice to have JEL associated in this project.

Signed on this 02nd day of November 2010.

Yours sincerely,

Jean-Luc Julien
F2 Alstom Site Manager
